

FLAREALERT

LED LIGHTING

Beacon

The Beacon is our standard model.
Available in two (2) colors: red and yellow

Colors/Models	red (RB.2), yellow (YB.2)
Brightness	0.5 watt LED
Battery life	flash mode = up to 140 hours steady mode = up to 40 hours

- Dimensions (3.75" diameter x 1.75" thick)
- Batteries (4 AA alkaline)
- Crush resistant (up to 20,000 lbs)
- Magnetic

Beacon Pro

The Beacon Pro is our premier model.
Available in five (5) colors: red, yellow, blue, green and white

Colors/Models	red (RBP.2), yellow (YBP.2), blue (BBP.2), green (GBP.2), white (WBP.2)
Brightness	1 watt LED
Battery life	flash mode = up to 60 hours steady mode = up to 20 hours

- Dimensions (3.75" diameter x 1.75" thick)
- Batteries (4 AA alkaline)
- Crush resistant (up to 20,000 lbs)
- Magnetic

Safe and Versatile

- Magnetic base-elevate your flare
- 360° visibility-can be seen for miles
- Waterproof-won't extinguish in rain/snow
- No flames-won't burn user/equipment
- LED technology-bulbs last years
- Safe-for anyone to use

Eco-Friendly

- Reusable - replaces thousands of flares
- No perchlorate - won't contaminate ground water
- No fumes - no toxic fumes released
- No residue - no debris left behind

NATURE PRESERVING

Ⓢ Weighted Base

The Weighted Base attaches magnetically to the bottom of your Beacon/Beacon Pro and holds it in place (e.g. for use during a helicopter landing). All Beacon/Beacon Pro units contain a built-in magnetic base and can be used with this accessory.

(Specs: 3.75" diameter x 0.25" thick, weight 12.2 oz)

Cone Adapter

Our Cone Adapter attaches magnetically to one (1) or two (2) Beacons/Beacon Pro units simultaneously and slides directly into the top of a cone. This accessory is compatible with all Beacon/Beacon Pro units.

(Specs: 10.5" tall x 0.5" thick, weight 7.2 oz)

Ground Stand

The Ground Stand is created by screwing a Cone Adapter into the center of the Weighted Base. This allows you to raise your Beacon/Beacon Pro eleven (11) inches off the ground without the use of a cone.

Store it!

Large Storage Bag

Bag can hold up to:

- 8 Beacon/Beacon Pro units
- 8 Cone Adapters
- 8 Weighted Bases
- 32 AA batteries

Specs: 12.75" x 10.5" x 2.75" (empty)
weight 14.8 oz (empty)

Small Storage Bag

Bag can hold up to:

- 3 Beacon/Beacon Pro units
- 12 AA batteries

Specs: 9" x 7" x 1.5" (empty)
weight 3.7 oz (empty)

The Beacon saves money

The Beacon vs strike flare

Graph demonstrates six flare pattern cost. Comparison made with red flares. Comparisons made using \$2.00/30 min strike flare, \$14.95/Beacon and \$21.95/Beacon Pro
